## JOIN US: BECOME AN AME VOLUNTEER!

### Volunteer Spotlight Becky Morgan

Fifteen years ago, Becky Morgan, President of Fulcrum ConsultingWorks, Inc. and the author behind many of Target Online's most-read articles, went to her first AME event in Cincinnati. At the regional event, Becky met the late Ken McGuire, who encouraged her to get involved at a regional level. Ken recognized Becky's **"passion for manufacturing and [for] helping manufacturers get stronger and better all the time,"** and Becky felt AME was another avenue to allow her to serve the manufacturing community. Over the years, she has enjoyed **"working with other AME board members to help make an impact and contribute to AME's goals and objectives."**

Becky notes that she and fellow volunteers (as well as the organization) benefit the most when people **"jump into the deep end, and take on a role with full commitment, executing to the best of their ability."** One of the biggest benefits to volunteering, says Becky, **"is meeting people who [she] would not otherwise have met – they are smart, great people with whom [she's] developed relationships beyond AME and AME events."** Also, the power of giving back is incredible. **"Everyone should make the world around him or her better, and not expect money for it; AME offers that."**

#### If you have a passion for excellence and enjoy sharing, become a volunteer.

- Share your talent and skills by participating and helping with special projects as needed.
- Share your company's story by hosting a regional event.
- Share your company's story and results by presenting at AME's annual conference.
- Learn from others by hosting a tour at your site.
- Grow professionally and personally by volunteering on your AME regional board.
- Share your passion for lean and help others by volunteering at AME's annual conference.
- Share your own AME conference experience with new registrants who would like to speak with a previous attendee.
- Share your lean knowledge and learn from others by serving as an assessor for the AME Awards.
- Share your lean lessons learned and experience in an article for *Target* magazine or Target Online.
